## INTRODUCTION.

---

FOR some years, it has been the opinion of the Editor, that a work of this kind is wanted for the Methodist people. How frequently is the question asked, "Who were our Circuit Ministers in the year ——?" But for want of a suitable reference book, the question often remains unanswered. Many of our members have not the "Minutes of Conference" (entire), and some who have, find it inconvenient to refer to them, on account of both the time and labour required; so to meet this want, is the chief design of the present volume. Also, it is intended to be useful to Ministers, and all other parties interested in the development of Wesleyan Methodism.

Notwithstanding the pains taken in copying from the Minutes, and in correcting the press, a few unimportant mistakes have occurred, but may be rectified in case a second edition be called for.
